

LED PANELS

Recessed and surface mounted designs are equipped with integrated SMD chips, therefore their use combines low energy consumption with high light utilisation. Besides household application, they can be used in many areas. Thanks to their outstanding efficiency and power, LED panels are extremely popular in office spaces, retail units, schools or hospitals. They are available in various sizes and power levels in built-in and wall-mounted designs.

LED PANELS

Recessed and surface mounted designs are equipped with integrated SMD chips, therefore their use combines low energy consumption with high light utilisation. Besides household application, they can be used in many areas. Thanks to their outstanding efficiency and power, LED panels are extremely popular in office spaces, retail units, schools or hospitals. They are available in various sizes and power levels in built-in and wall-mounted designs.
