

### JUMBO/SOFT FILAMENTS

The jumbo filament series give out a soft light that is pleasing for the eyes to look at while being strong enough to brighten up the space. They can also be dimmed to create the desired intensity level. They are the ideal light bulbs, appropriate in cosy environments such as the living room, bedroom or the dining area. Furthermore they are also quite popular in restaurants, clubs, bars, cafés and hotels. Available in extra warm color temperature (2400K).
