

FLOOR LAMPS

An important criteria of a floor lamp is to fade into the style of the room and its furnishing. But that is not all. When installed in the right place, it also shapes our home with its elegance, and convenient functions. The floor lamps available in our assortment are characterised by a modern, simple and yet elegant design. Our products equipped with integrated LED have long lifespans. They are available in warm white and in CCT design, that is their colour temperature can be adjusted using a remote controller.
